SECRET/CONTROL - U.S. OFFICIALS ONLY 25X1 <u>~ 3 ~</u> The two troop trains on 5 March 1954 probably carried elements 25X1 of the 120th (?) AAA Regt of the 6th Gds Mecz Div from Bernau to Jueterbog. The troop train on 6 March 1954 was one of the two trains which hauled elements of the 71st Light Arty Erig from Bernau to Neustrelitz to 25X1 participate in field exercises by the 25th Tank Div in the Mueritz See Lake -Neuruppin area. 25X1 Comment. There are slight indications that, on about 10 March 1954, units of the IX Mtz Rifle Corps conducted field exercises in the Muaritz See Lake - Wittstock area. The three troop trains to Ellerholz possibly carried contingents to the above maneuver. As, however, an artillery unit with such a high number of artillery pieces is not stationed at Ludwigslust, the trains probably came from Schwerin. On 10 March 1954, possibly contingents of the 3rd Gds AAA Div were dispatched from Magdeburg to Schwerin to participate in the above field exercises. Comment. The observations in paragraphs 3.44 and 5 are mutually confirming. 25X1 The observations covered the return shipments of the 25th Tank Div after termination of the field exercise mentioned in
